

TINKA SAMAJIK SANSTHA

ANNUAL REPORT 2018-19

KUSHAGRA PATHAK

About us

Tinka has been working in the tribal and rural parts of Harda district. The organization's mission is to make the society more safe for women and to provide a stage and create opportunities. We are working to create a community where every child is fit- both physically and mentally, which is a necessity while taking development into account. While many aspects are there while considering the development of children and youth, the most important and seldom taken into consideration is the bias posed forth by society - the discrimination based on 'Gender'. Thus through sports education, we are trying to break the gender norms, fight gender-based discrimination and caste discrimination, child marriage, early and/or forced marriage, and promote education.

Running Projects

TUF- The Unique Fighters

THE UNIQUE FIGHTER (TUF) is a martial arts training program which was launched along with the organization's setup in April 2017. By the time of this project's launch, we had trained almost 35,000 boys and girls.

Summer Camps

During the summer camps, Karate training along with several other sports is given to children in many villages across Harda and nearby districts. This project is done with the help and collaboration of the local government.

Working Area

Harda, Khandwa, Burhanpur, Bhopal, Indore

Dream Project

SUPER 20

Super -10 is our dream project for tribal girls. its motive to prepare national and international level karate players to represent the nation.

BASIC TO ADVANCED LITERACY AND SPORTS PROGRAM

BALSP is a program that focuses on the preparation of 60 drop out children from 3 villages. In this project we focus on giving primary education to the children and provide them with guidance until they achieve higher education.

Vision

- A community and society where girls and women will develop a strong sense of agency. They will establish a high level of assertiveness and confidence.
- The family will be a social structure where equality will be the cornerstone and equal opportunity will be given to girls and boys at par.
- Girls will achieve higher education and employment opportunities. Marriage will be a choice for women.

Mission

- The mission of Tinka is to promote gender equality through sports education. In a community where it's challenging for girls to go to school. And where the oppression is to such an extent that their growth opportunities are permanently lost. -To encourage them to come to a

Karate gym and then give them a stage to express themselves is an achievement in itself. Tinka's mission is to make every aspect of society gender friendly.

- Our project focuses on the development of women in the community through child development, also our project's mode of intervention is different as in our project we bring change through sports.

Achievements

Total Registered Students in Harda district- 2,076

In other districts (Tikamgarh, Burhanpur, Khandwa, Indore, Bhopal)- 5,000

18 Players were selected at International level tournaments

Players selected at National level- 75

Dropped out children who rejoined with schools- 17

Total regular centers- 15

Summer camps were organized in- 17 villages

Total Leaders- 42, Girl Leaders- 22, Boy Leaders- 20

Challenges

Harda district houses communities of people with traditional mindsets and barriers that prevent girls from pursuing even basic education. As accessibility to middle school and high school education is an impediment, girls education is withdrawn for the same. There is also a constant pressure of early marriage on the girls. It is a vicious cycle where the girls are disempowered without adequate education and enter marriage at an inappropriate age.

COME HAVE A LOOK...

THE YEAR AT A GLANCE; MONTHLY UPDATES

The Karate Shows and Demonstration shows contributed to the funding required for the maintenance of the regulation and administration of Tinka's work in different domains of the fields. This also boosted the name of the organization and worked as a mobilization activity to bring more and more Karate enthusiasts to Karate centers.
